

CALL FOR 3D/XR PROJECTS IN DEVELOPMENT

Submission deadline: 30 September 2020

Organized by Stereopsia - the World Immersion Forum, **the Booster is a unique springboard for innovative filmmakers with an immersive 3D/XR project in development.**

"We believe that innovative stories from independent creators are important for the future of immersive filmmaking and need help to reach their market and audience. Stereopsia is the only professional and scientific summit worldwide dedicated to stereoscopic-3D immersion and a perfect place to gather creators looking to expand their knowledge and network in this field. With the growing interest for XR, new opportunities for immersive contents are coming and innovative producers must be at the forefront of the market in order to succeed in transforming great ideas into releasable projects."

- Sylvain Grain, coordinator of The Booster

The Booster is a 3-days program starting with an intensive, small-group, hands-on training led by international experts to master the **art of pitching**, get the **latest insights & trends for the XR contents, industry and market**, be at the forefront of the **XR technologies** and learn **how to develop and finance a XR project**.

The **Booster** also offers its participants the opportunity to **pitch** their project to a jury of potential partners, co-producers, distributors and film funds, **network** in many socials, create new business opportunities by participating to **one-to-one meetings** and compete for the **Booster Award**, which will be given to the winner during the **Awards Dinner** of Stereopsia held on 16 December 2020 at the EGG.

Previous editions gathered projects coming from USA, Canada, Brazil, Colombia, Chile, France, Germany, Spain, Belgium, Poland, Austria, Ukraine, Russian Federation, Kenya and Philippines.

The Booster will take place on **14-16 December 2020** at The Egg Brussels, Belgium, as part of **Stereopsia**, the World Immersion Forum (www.stereopsia.com). All information about **The Booster** can be found at www.stereopsia.com/booster including this Call for projects, the Regulations, and the Submission form. The required elements must be sent by email (see below) no later than **30 September 2020**.
